# Domain Registration Services

The First Party registers domain names for the Second Party under the following TLD/ccTLDs and services:

- A. .QA
- B. .COM.QA
- C. .NET.QA
- D. .NAME.QA
- E. قطر .QATAR (Arabic Domain Name)

Based on this agreement, ccTLDs (country code Top-Level-Domains) can be activated directly by confirming the respective Registration Guidelines and Policies in the ROUTEDGE.NET.QA Web Interface. The Second Party is required to enter into an electronic or paper Registrar-Second Party agreement with ROUTEDGE as published from time to time on the ROUTEDGE.NET.QA website using updated policies from the QDR/CRA web portal.

Domain names are registered on a first-come, first-served basis. Simply making an application does not guarantee domain registration. The Second Party must approve policies and make payment.
