# How to Add *Sub Domain*

Step 1.

➤ Add DNS 'A' Record for sub domain

1. Use this link to open browser https://w3.domains/Login.aspx

   Enter the following information:

   - Username: *your mail address*

   - Password: *your password*

2. After Login view My Account Page and Select **Domains** tab:

SI.No.	Domain Name	Domain Regi...		egistered Date	Expir...
1	sumeshnp.com	Domain Regi...	Select Domains & Services	/1/2018	1/1/...
2	sumeshnp.in	Domain Registration	Pending	1/1/2018	1/1/...
3	w3info.in	Domain Registration	Pending	1/1/2018	1/1/...
4	w3info.in	Domain Registration	Pending	1/1/2018	1/1/...
5	w3info.in	Domain Registration	Pending	1/1/2018	1/1/...

3. View to **Domains & services** Page, then click your domain.

SI.No.	Domain Name	Domain Registration	Status	Registered Dat
1	sumeshnp.com	Domain Registration	Pending	1/1/2018
2	sumeshnp.in	Domain Registration	Pending	1/1/2018
3	w3info.in	Domain Registration	Pending	1/1/2018
4	w3info.in	Domain Registration	Pending	1/1/2018
5	w3info.in	Domain Registration	Pending	1/1/2018

Click Your Domain

4. View domain page Click to ==**Name server / DNS**== Tab

5. View to ==**Name server / DNS**== page

- NS1.W3INFOTECH.NET
- NS2.W3INFOTECH.NET
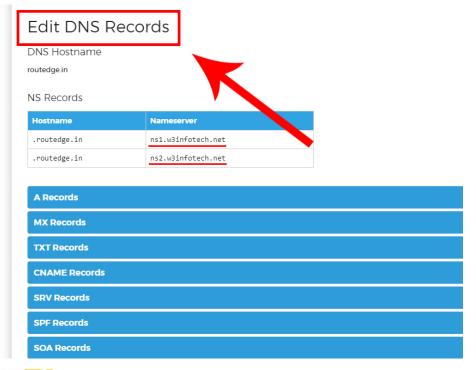

Then you can Edit DNS Record.

==Check Below Screen shot==
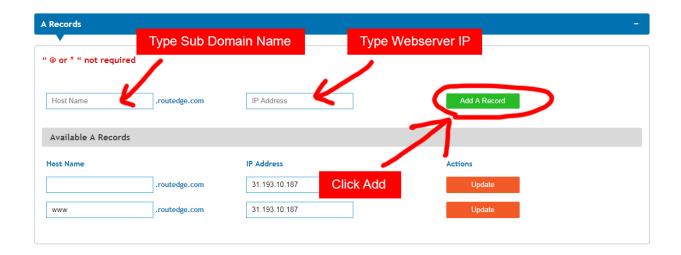

Expiry Date : June 4 2020

| DOMAIN CONTACTS | 🌐 NAME SERVER/DNS | HOSTED DNS | ⇄ FORWARDING | 🔒 DOMAIN PASSW |

NameServer 1

NS1.W3INFOTECH.NET

NameServer 2

NS2.W3INFOTECH.NET

NameServer 3

NS3.W3INFOTECH.NET

NameServer 4

NS4.W3INFOTECH.NET

NameServer 5

NameServer 6

NS1.W3INFOTECH.NET

NS2.W3INFOTECH.NET

SUBMIT

6. Then you can edit / **Update DNS Records**

Edit DNS Records

DNS Hostname

routedge.in

NS Records

Hostname	Nameserver
.routedge.in	ns1.w3infotech.net
.routedge.in	ns2.w3infotech.net

A Records

MX Records

TXT Records

CNAME Records

SRV Records

SPF Records

SOA Records

Brandable Domains Forever!

7. Add Sub Domain *'A' Records*

Step 2.

➤ **Login back to your Hosting Control Panel and Add Website with Sub Domain Hosting.**
